

New Bonfiglioli Planetary Drive: **300M Series**

The new 300M Series offers our customers the opportunity to enhance production performance and benefit from a significant cost-effective solution.

TECHNICAL FEATURES

- New planet bearings with best-in-class reliability
- Completely interchangeable with Bonfiglioli 300 series
- New optional self air cooling system (patent pending)

BENEFITS

- Increase performance at 1 million cycles for the most demanding industrial applications
- Cost-effective solution
- No more external cooling system needed thanks to the innovative self air cooling system

MAIN APPLICATION SECTORS

MATERIALS HANDLING

Feeder & Apron Feeder,
Screw Conveyor

CRANES & WINCHES

Jib Cranes,
Ship Loader / Unloader

FOOD & BEVERAGE

Milling machine, Dryer & Cooking machines,
Presses, Grinding & Flaking machines,
Spiral Freezers

MINING

Belt Filter, Crusher, Car Dumper,
Stacker Reclaimer

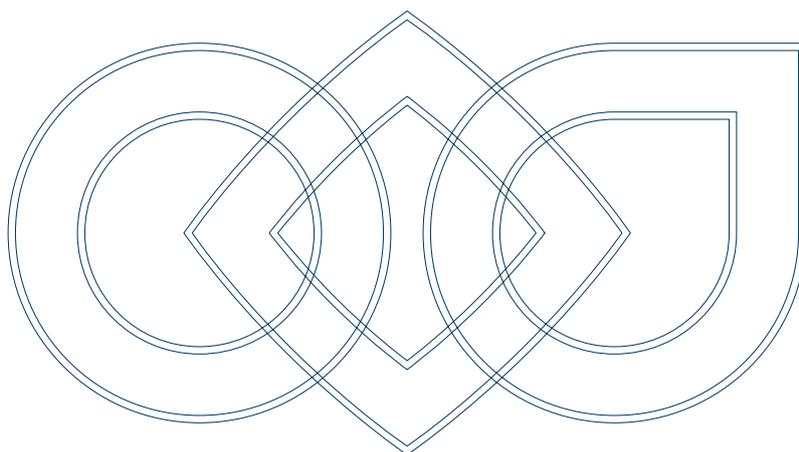

RECYCLING

Shredder LD, Screening,
Shredder HD

WATER, WASTEWATER

WaterGate, Band/Water Screener, Pumps,
Mixer (Agitator, Aerator), Screw Press
Machine, Digester
