

ATLAS

Leading Railcar Mobility Since 1948

Joystick & Armrest Controls

Ergonomic Operator's Seat

Pivoting Main Frame Bearing

Safe-T-Vue™ 360° Visibility System

Over 60,000 lbf. of Tractive Effort

INNOVATIVE RELIABLE EFFICIENT

ATLAS

The Atlas is Trackmobile's highest capacity model. Designed for more rugged and higher duty cycle applications, the Atlas is optimized to handle the most severe rail conditions with optimal operator comfort. As the premier model, the Atlas offers many options as standard features.

Atlas control panel and operational controls.

Standard Features

- CAN-Bus Control System with On-board Diagnostics
- UltraView 7" Color Touch Screen Display
- Ergonomic Air Ride, High Back 180° Swivel Seat
- Joystick and Armrest Controls
- Tinted tempered glass (meets ANSI 26.1 standard)
- Automatic / Manual Power-Shift Transmission
- 100 CFM Rotary Screw Air Compressor
- In-Cab Front and Rear Train Air Valves
- Incremental Train Air Brake Controller
- Train Air Hold Button
- Steel Railwheels
- Accessible External Disc Brakes
- Impact Sensor/Recorder
- Embedded LED head lights.
- LED strobe, work, and under hood lights
- Upgraded Jumpseat
- Premium HVAC system
- 35,000 BTU with 550 CFM HVAC
- Fire Extinguisher, 5 pounds
- Heavy-duty Mine Service Foam Filled Tires
- Patented MAX-Tran and MAX-Trac systems
- Train Air Charge Indicator

Safety is at the forefront of all Trackmobile engineering designs. In addition to slip-resistant surfaces, abundant lighting, and crossover decks with steel non-slip ladders, Atlas also offers these standard and optional* safety features:

- Patented Safe-T-Vue™ 360° Visibility / Railing Display
- Ramped Throttle Control Quick and Slow
- Telematics Remote Monitoring & Diagnostics
- Rear Coupler Camera
- Electronic Speed Control
- Neutral Braking
- Hydraulic Lock-Out

- MAX-Trac Automatic Traction Control System
- MAX-Tran Automatic Weight Transfer System
- GPS Positioning Capabilities
- Remote Control System*
- Vigilance Control*

Ask your Trackmobile Specialist about these and other options to help keep your crews safe and reduce workload fatigue.

^{*} Feature is an option

Glad hand connections

Train Air Brakes

Train Air Compressors

100 cfm Rotary Screw Air Compressor

STANDARD

NOTE: All Train Air System options feature in-cab train air valves.

Hydraulic System

- Constant pressure hydraulic system, piston pump and o-ring face seal fittings and oil filtered below ISO 18/16/13.
- Provides On-road and on-rail braking power.
- Provides hydraulic steering on road.

Electrical	SI	/sten
Liccuitca		736611

Electrical System	
Alternator	HD 12-Volt DC, 160 AMP
Batteries	Two (2) - 925 CCA
Digital Instrumentation	SAE-J1939 CAN-Bus Control System
Digital Control Display	7" display for real-time machine statistics and diagnostic data.
Cameras	Safe-T-Vue™ 360° visibility and railing camera with 10″ color monitor
Additional Cameras	Two (2) additional outputs for extra camera locations
Alarms	Automatic backup road-mode alarm, selectable electronic
	Warble-type alarmBlast-type air hornAmber strobe warning lights

Wheels / Tires

On Road	Four (4), 20-ply, radial, 12.00×20 , Heavy-duty mine service, foam-filled, puncture-resistant rubber tires
On Rail	Four (4), 33" [838.2 mm], heat-treated, forged steel,

Rail Sanders

Eight (8) individual, air-operated, electronically-controlled sanders.

Chassis / Frames

Main Frame	Heavy-duty, high-strength welded steel with two (2) 8" [203 mm] thick ballast plates and 4" [101.6 mm] structural plates.
Pivoting Frame	Heavy-duty 6" [152.4 mm] thick, split pivotign main frame with 8" [203 mm] mounting plate with oscillating bearing that pivots up to 10° assuring 4-wheel rail contact at all times and extends axle life.
Body Frame	Heavy-duty, all-welded construction using 2.5" [63.6 mm] pre-formed steel deck plates and 1.25" [21.75 mm] side plate structural forms.

Suspension

For air-ride cab suspension. Four (4) Firestone airbags and cab air-ride shock absorbers between body frame and fully suspended cab leveling adjustment capability.

Couplers / Coupler Beams

Couplers	Two (2) heavy-duty cast steel weight transfer design, positive coupling and uncoupling with AAR contour coupler and locking knuckles.
Coupler Beams	Two (2) standard-width coupler beams with graphite wear pads, which handle most standard curve radii.

Optional wide-traverse coupler beams are available for adverse and severe curve radii.

Note1 Note²

Not to be used in conjunction with Ether starting fluid.

Maximum application pressure is varied automatically, depending on whether the machine is in rail or road mode. On rail, the application pressure will vary depending on weight transferred, for best stopping capability.

*Rail Gauges available in various sizes.

**For shipping purposes, add 1.5" (38 mm) to rail height for a 2" x 4" block under wheel tread.

Additional variations may occur due to options selected.

***Actual speeds obtained will depend on grade, load, altitude, and other factors.

^^ Width of machine includes 360° Safe-T-Vue™ cameras on each side of machine. Width may

be narrowed by approximately 3" for tight tolerances if Safe-T-Vue™ system is removed at time of new machine order.

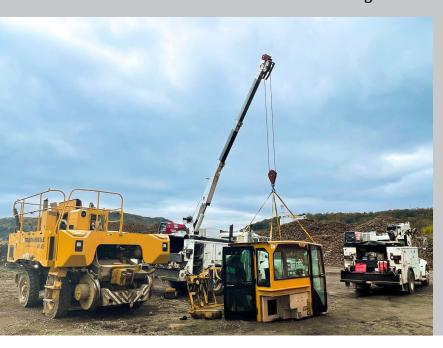

Trackmobile is a proud member of the Marmon Rail Group. Marmon Rail provides a variety of products and services to help solve customer's biggest challenges. Whether you need track maintenance and construction, locomotives, railcar movers, or on-site and mobile repairs, Marmon Rail and Leasing has a solution for your operation. All companies within Marmon Rail are experts in their field. We leverage our expertise to provide customers with innovative, sustainable solutions for any rail operation.

TOGETHER, WE KEEP OUR WORLD MOVING FORWARD.

Industry's Most Experienced Dealer Network

More than 100 facilities and over 300 factory-trained service technicians throughout North America

- 24 Hour Emergency service
- Service & Parts for all models of Trackmobiles
- Dedicated railcar mover technicians
- Customized railcar mover service vehicles
- On site or in shop service and repair
- NEW Trackmobile railcar movers
- Quality reconditioned railcar movers
- · In shop or on site Operator training
- Late model rental units for emergencies
- Availability reduces downtime
- Machine demonstrations
- Machine safety evaluations
- Free site surveys

UNPARALLELED SERVICE AND SUPPORT

Trackmobile dealers provide the industry's best and most experienced sales and service support. Many of our dealers have been working with railcar movers, specifically Trackmobile, since its introduction in the early 1950's. From being there to help select the right machine for your operations, to providing knowledgeable ongoing support, Trackmobile dealers help keep your business on track. Our customers have reported maintaining up to 99.7% uptime due to Trackmobile's dependability and unsurpassed customer service support.
